Evaluations will be conducted at the conclusion of each evaluation period to determine if the student has met the minimum requirements for satisfactory academic progress. The frequency of evaluations ensures that students have had at least one evaluation by midpoint in the course.

ATTENDANCE PROGRESS EVALUATIONS

Students are required to attend a minimum of 80% of the hours possible based on the applicable attendance schedule in order to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 80% cumulative attendance since the beginning of the course which indicates that the student will graduate within the maximum time frame.

MAXIMUM TIME FRAME

The maximum time (which does not exceed 125% of the course length) allowed for students to complete each course at satisfactory academic progress is stated below:

Students who have not completed the course within the maximum timeframe will be terminated but may re-enroll in the course on a cash pay basis, see re-enrollment policy on page 4.

ACADEMIC PROGRESS EVALUATIONS

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better (the computer system will reflect completion of the practical assignment as a 100% rating). If the performance does not meet satisfactory requirements, it is not counted and the performance must be repeated. At least two comprehensive practical skills evaluations will be conducted during the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade average of 80% and pass a FINAL written and practical exam prior to graduation. Students must make up failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale:

90 - 100	(A)	EXCELLENT
80 - 89	(B)	SATISFACTORY
79 and BELOW	(F)	UNSATISFACTORY

DETERMINATION OF PROGRESS STATUS

Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will receive a hard-copy of their Satisfactory Academic Progress Determination at the time of each of the evaluations. Students deemed not maintaining Satisfactory Academic Progress will have their Title IV Funding interrupted until they are able to reestablish Satisfactory Academic Progress, unless the students is on warning.

WARNING

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning and considered to be making satisfactory academic progress while during the warning period. The student will be advised in writing on the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the warning period, the student has still not met both the attendance and academic requirements, the student will be deemed ineligible to receive Title IV funds. At this point the student will be offered a financial plan to finish the balance owed to the Academy to remain enrolled. All decisions will be made at the school’s discretion.

RE-ESTABLISHMENT OF SATISFACTORY ACADEMIC PROGRESS

Students may re-establish satisfactory academic progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of the warning period.

INTERRUPTIONS, COURSE INCOMPLETES, WITHDRAWALS

If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll will return in the same satisfactory academic progress status as at the time of withdrawal. Changes in majors/degrees or pursuit of a second degree are not offered at this institution.

APPEAL PROCEDURE

Taylor Andrews Academy does not currently acknowledge any appeal process for Financial Aid Warnings or Unsatisfactory Progress.

NONCREDIT, REMEDIAL COURSES, REPETITIONS

Noncredit, remedial courses, and repetitions do not apply to this institution. Therefore, these items have no effect upon the school's satisfactory academic progress standards.

TRANSFER HOURS

With regard to Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and earned hours for the purpose of determining when the allowable maximum time frame has been exhausted.

ACCESS TO RESULTS

All Satisfactory Academic Progress reports are kept in the student's file. Students may request access to them at any time by an administrator.

Attendance Policy

1. The course length is 1600 clock hours for Cosmetology/Barber, 1200 clock hours for Esthetics, 300 clock hours for Nail Technician, 1000 clock hours for Hair Design, and 270 clock hours for Eyelash & Brow.

3. The student agrees to pay extra instructional charges for each hour needed to complete requirements beyond the calculated completion date. Extra instructional charges will accrue whether or not the student actually attends, and will be charged at a rate of \$10 per hour. All charges will be due and payable monthly. Transfer students will be calculated pro-rata. Excused/Unexcused absences are not applicable, as time has been added to your contract graduation date to accommodate sick and personal days. Medical documentation for absences will not be accepted, as time has been added to your contract graduation date to accommodate sick and personal days. Exceptional and emergency medical conditions will be reviewed individually by the Academy Owner on a case-by-case basis, and the decision will be final.
4. All students will be required to clock in and out using the time software provided by the school. If a student fails to clock in or out, they may complete an hour discrepancy form, which will be reviewed weekly by the administration. If there is a continued problem per student, the student may incur additional disciplinary action upon the discretion of the administration.
5. All students must sign out and in with the front desk during for their 15 min break time/dinner break time. If a student fails to sign back in, the school will assume the student has not returned for that day and the student will be clocked out. If there is a continued problem per student, the student may incur additional disciplinary action upon the discretion of the administration.
6. If a student fails to attend school for more than 14 calendar days, the student will be dropped from the Academy.

Makeup-Work Policy

Students who are absent must make up any tests, assignments, classes or theory prior to graduation. Students will be given the chance to take the test 1 time & retake the test 1 time, if the student still needs to pass the test, they will pay \$15 for each retake past the 1st. If a student needs to retake a theory exam, they need to message their distance education instructor no later than Sunday @11:59pm, the exam will be re-opened by end of day Monday. *in the case of a school closure on Monday, the test will be re-opened on Tuesday.

Leave of Absence Policy

Taylor Andrews Academy prides itself in preparing the students for a real life work experience during training. Therefore, in order to take a leave of absence a student must complete a student request for leave of absence form in writing including the reason for the request. This must be signed by the student and turned into the Admissions Advisor at least one week in advance unless for reasons of unforeseen circumstances. If a leave is approved in this case the institution must document the reason for its decision and the request must be collected at a later date. The date the leave begins would be determined by the institution to be the first date the student was unable to attend the institution because of the unforeseen incident. Each leave of absence request will be reviewed by the Owner on a case-by-case basis. **Please note that the Academy does not have to grant a leave of absence.** The Owner may grant a leave of absence based on the following criteria:

1. Temporary disability
2. Medical reasons deemed necessary by a physician
3. Charitable Sabbatical
4. Maternity Leave
5. Family/Personal problem
6. Covid-19

There must be a reasonable expectation that the student will return from the LOA in order to be approved. If a Leave of Absence is granted the authorized leave must be taken in succession. The student must understand that they may not receive all classes that are offered at the institution depending on the timeline of the leave of absence. The leave must be for a minimum of 30 days and a maximum of 90 days (unless approved by the academy), with the exception of Covid-19 the academy will grant a 14-day minimum Leave of Absence. Not ever to exceed a total of 180 days in any 12-month period of time. An authorized Leave of Absence will extend the calculated completion date by the same number of calendar days taken in the Leave of Absence, and the student and administration will initial the new completion dates on the enrollment agreement once the student returns from the Leave of Absence. No additional institutional charges will be assessed as a result of the leave of absence. A student granted an LOA that meets all the criteria is not considered to be withdrawn and no refund calculation is required at that time. If a student fails to return from a leave of absence when scheduled, and does not contact a school administrator to extend, the student will be withdrawn. The withdrawal date for the purpose of calculating a refund is always the students last day of attendance. A student will be withdrawn if the student takes an unapproved Leave of Absence.

Treatment of Title IV Aid when a student withdraws (R2T4 Policy)

The law specifies how we must determine the amount of Title IV program assistance that you earn if you withdraw from school. The following federal aid funds may be affected if you withdraw, stop attending, or never attend classes:

- Direct Unsubsidized Loans
- Subsidized Loans
- Direct Parent PLUS Loans
- Pell Grants

The system used to determine the withdrawal date is

- 1 A student notifies the institution of his/her withdrawal in writing.
- 2 A student on an approved leave of absence notifies the school that he/she will not be returning. The date of withdrawal shall be the earlier of the date of expiration of the leave of absence or the date the student notifies the institution that the student will not be returning.
- 3 A student is expelled by the school. (Unofficial withdrawals will be determined by the institution by monitoring attendance at least every 14 days.) If a student does not notify that school that s/he is withdrawing, and has not attended for 14 days, a formal termination shall go into effect.
- 4 In type 1, 2, or 3 official cancellations or withdrawals, the cancellation date will be determined by the postmark on the written notification, or the date said notification is delivered to Taylor Andrews Academy – St George administrator or owner in person.

In all 4 types of withdrawals, the institution will use the last date of attendance as the official withdrawal date. When you withdraw during your payment period the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by the school and/or you. The amount of assistance that you have earned is determined on a prorata basis. For example, if you completed 30% of your payment period, you earn 30% of the assistance you were originally scheduled to receive. Once you have completed more than 60% of the payment period, you earn all the assistance that you were scheduled to receive for that period. If you did not receive all the funds that you earned, you may be due a Post-withdrawal disbursement. If your post-withdrawal disbursement includes loan funds, we must get your permission before we can disburse them. You may choose to decline some or all or a portion of your post-withdrawal disbursement of grant funds for tuition, kit, or fees. The school needs your permission to use the post-withdrawal grant disbursement for all other school charges. If you do not give your permission, you will be offered the funds. However, it may be in your best interest to allow the school to keep the funds to reduce your debt at the school. There are some Title IV funds that you were scheduled to receive that cannot be disbursed to you once you withdraw because of other eligibility requirements. If you receive excess Title IV program funds that must be returned, we must return a portion of the excess equal to the lesser of: 1. your institutional charges multiplied by the unearned percentage of your funds, or 2. the entire amount of excess funds. We must return this amount even if it didn't keep this amount of your Title IV program funds. If we are not required to return all the excess funds, you must return the remaining amount. Any Title IV program funds due for return shall be refunded to the Department of Education within 45 days of a determination that a student has withdrawn, whether officially or unofficially. The order of which Title IV funds will be returned first Unsubsidized Loans, if there is still a remaining balance to return from the payment period then second will be Subsidized Loans,

and if there is still a balance to return from the payment period then third will be Direct Parent PLUS loan, and if there is still a balance to return from the payment period the last will be Pell Grant. Any loan funds that you must return, you repay in accordance with the terms of the promissory note. That is, you make scheduled payments to the holder of the loan over a period. Any amount of unearned grant funds that you must return is called an overpayment. The maximum amount of a grant overpayment that you must repay is half of the grant funds you received or were scheduled to receive. You must decide with your school or the department of education to return the unearned grant funds. **The requirements for Title IV program funds when you withdraw are separate from our school's refund policy.** Therefore, you may still owe funds to the school to cover unpaid institutional charges. We may also charge you for any Title IV program funds that the school was required to return.
